

LOOKING TO OPTIMIZE YOUR SUPPLY CHAIN?

PARTNER WITH SIKICH TO HELP REDUCE COSTS IN YOUR SUPPLY CHAIN.

Here's How:

NETWORK RATIONALIZATION

- Plant, Warehouse, Distribution Center
- How many, where located, how big, how automated?

WAREHOUSE PRODUCTIVITY & SPACE UTILIZATION IMPROVEMENT

- Process re-engineering/waste reduction using Lean principles
- Determine the most optimal Picking and Storage methods
- Material handling & automation assessment

E-COMMERCE FULFILLMENT

- Pick, Pack & Ship Design Alternatives
- Product-to-Man, Put-to-Light and Print/Apply Turnkey solutions

RIGHT-SIZE INVENTORY

- SKU rationalization
- Cube movement & slotting analysis
- Improve forecast accuracy & right size inventories

TECHNOLOGY ASSESSMENT

- WMS/TMS selection, design & implementation
- Parcel Shipping system selection & integration
- Batch picking with put and pick to light work stations
- Voice Directed Work – Turnkey Solutions
- RFID review and design
- Integration with ERP & WCS systems

KPIs

- Productivity benchmarking
- "The Important Few" KPI design & deployment
- Real-time performance visibility using BI tools

Achieve bottom line cost reductions or improved capacity from our value added re-engineering process, equipment and systems knowledge.

To find out how you can achieve a more responsive Supply Chain at a lower total cost of ownership, please contact our Partner-in-Charge, Gregg Hague, at 630.508.5900 or gregg.hague@sikich.com.

CORE SERVICES

Warehousing & Distribution Services

Achieve a competitive supply chain by cutting costs and improving responsiveness.

Manufacturing Solutions

Become a highly responsive and demand-driven network of efficient and flexible operations with our comprehensive manufacturing services.

Material Handling Equipment (MHE) Implementation

Implementing MHE solutions is a specialized skill, and experience matters. Our experience provides a single source of responsibility and is aligned with best-in-class MHE suppliers, to ensure implementation is done right.

Supply Chain Technology

Get advice on the latest Supply chain technology advances from our software agnostic experts. We pride ourselves on staying abreast of the latest technologies and WMS/TMS software vendors. Take advantage of our processes and proven methodologies for assessment and selection through implementation.
